Dear Sir:

The above-identified applicant has received a Notice of Abandonment mailed on 14th October 2004 and second decision on petition dated July 26, 2005. In response to this, I hereby apply for a petition to withdraw holding of abandonment based on failure to receive Office Action and attest to the fact that a search of the file jacket and docket records indicates that the Office Action Communication was not received as the enclosed translation shown. The evidences are provided as follows:

1. An affidavit is enclosed to affirmably state that I, the applicant Wang Chi-Jung, did not receive an Office Acton from USPTO mailed on 1st April 2004.
2. Translated documents of docket record of our administration department regarding the receiving mails from USPTO during the period of 30 March 2004 to 1st July 2004 are enclosed. The translated documents are notarized by a district court of Taipei, Taiwan.
3. Documentary evidences of mail received covering a reasonable period after the date of the office communication dated April 1, 2004 to show non-receipt of the communication in question.
4. Explanation of our computer database as a reminder for response before due day.
5. Base on the evidences of our computer database and the docket record of our firm, we maintained affirmably that there is no trace of the Non-final Office Action mailed on the 1st

April 2004 arrived in our firm.

6. We also got a verbal confirmation from the Mail Headquarter Office in Taipei to verify the numbers of air-mails delivered to our firm during the specific period 1st March 2004 to 1st July 2004 are corresponding to our database and docket record. However, the Mail Headquarter Office in Taipei will not provide any official document unless there is strong evidence to indicate that there was failure on the Taipei Mail Office.

Finally, I firmly certify that the correspondence address was actually a functioning one at the time the office action would have been received. A petition to withdraw holding of abandonment based on failure to receive Office Action is respectfully requested. Should there be any questions with respect to this statement and evidence, please contact me by fax to 886-2-87681797.

Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

DECISION ON PETITION
TO WITHDRAW THE
HOLDING OF ABANDONMENT

This is a decision on applicant's petition to withdraw the holding of abandonment, filed in the United States Patent and Trademark Office (USPTO), on October 27, 2004.

The petition is **DISMISSED**.

A review of the file record reveals that the application became abandoned for failure to respond to the Office action mailed to applicant on April 1, 2004. A Notice of Abandonment was mailed on October 14, 2004.

Applicant's petition indicates that the Office action was never received. In support thereof applicant has provided a log of papers received. This is not considered to be a docket record.

There is a strong presumption that Office communications properly addressed and delivered to the United States Postal Services, are in fact delivered to the addressee. An allegation that the Office communication was not received must be overcome by a showing that it was not received.

The showing required to establish non-receipt of an Office communication must include all of the following requirements:

- (1) A statement from the practitioner stating the Office communication was not received by the practitioner;
- (2) A statement attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received; and
- (3) A copy of the docket record where the non-received Office communication would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement.

The docket records indicated above must include a copy of the list of all responses in the practitioner's office with the due date at and around July 1, 2004. See Notice entitled "Withdrawing the Holding of Abandonment When Office Actions Are Not Received," 1156 OG 53 (November 16, 1993).

The petitioner has failed to comply with requirement (3) indicated above. Applicant has only set forth that the Office action mailed April 1, 2004 was not received or placed in the file for application 10/700,115. A complete docket record with a copy of the list of all responses in the practitioner's office with the due date at and around July 1, 2004 is required.

Petitioner's evidence of non-receipt of the Office action mailed April 1, 2004 is insufficient to withdraw the holding of abandonment, and the petition is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.181."

Correspondence with respect to a Petition to Withdraw the Holding of Abandonment under *Delgar Inc. v. Schuyler* should be mailed to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

Dear Sir:

This letter is in responsive to your decision on petition to withdraw the holding of abandonment mailed on March 25, 2004. I declared that I have never received the office communication mailed on October 14, 2004 and petition to withdraw holding of abandonment based on failure to receive Office Action and attest the fact that a search of the file jacket and docket records indicates that the Office Action Communication was not received as shown. Per your request for a copy of the docket record where the non-received office communication would have been entered had it been received and docketed, we attach a list of records indicating the airmail sent around and at July 1, 2004 as well as the photocopies of mailing receipts stamped by post office to prove no response for the identified application has ever been received and responded. Therefore, I herewith request to withdraw holding of abandonment for this application.

DECISION ON PETITION
TO WITHDRAW THE
HOLDING OF
ABANDONMENT

This is in response to applicant's renewed petition to withdraw the holding of abandonment filed in the United States Patent and Trademark Office (USPTO) on May 9, 2005.

The petition is **DISMISSED**.

A review of the file records reveals that the application was held abandoned for failure to timely file a reply to the non-final Office action mailed April 1, 2004. A Notice to that affect was mailed October 14, 2004.

There is a strong presumption that mail properly addressed and delivered to the United States Postal Service was in fact delivered to the addressee. An allegation that an Office communication was not received may be considered in a formal petition for the withdrawal of the holding of abandonment, in accordance with *Delgar Inc. v. Schuyler*, 172 USPQ 513. However, the presumption that the Office communication was delivered to applicant may be overcome by a showing that the communication was not, in fact, received. The dismissal of applicant's previous petition mistakenly included the requirements for statements showing non-receipt of papers when an attorney is representing the applicant. The Office apologizes for this error, and the requirements for pro se applicants are stated below.

For a pro se applicant 1156 O.G. 53 does not apply, therefore statements of non-receipt should include a statement by the applicant, and by anyone else at

applicant's correspondence address who would have handled the Office communication, and include any available documentary evidence of mail received, covering a reasonable period after the date of the Office communication, to show non-receipt of the communication in question. Copies of records on which the receipt date of the Office communication would have been entered had it been received, (e.g., a copy of the outside of the file maintained by applicant), are required if available. Also, a showing of any docket records or other method which would serve as a reminder of a response due date should be submitted. Whatever method applicant uses as a reminder, and submits in response to this decision should be adequately explained. Also, a statement is required that a search of the file maintained by applicant, or any other location where correspondence from the USPTO is kept, failed to find a copy of the Office communication in question. Finally, applicant must state that he was in fact at the correspondence address of record or that the correspondence address was a functioning one at the time the Office action would have been received.

Any such exhibits should be submitted as part of statement(s) showing that no Office communication was ever received.

Applicant's petition of May 9, 2005 does not include any statement by the applicant that the office action was not received, nor any statement that the applicant was at the correspondence address at the time the office action would have been received. Also, no showing has been made of any docket records or any other method that serves as a reminder of a response due date.

Applicant states that the office communication mailed October 14, 2004 was not received, however this communication was the Notice of Abandonment.

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.181" and should be mailed to the Commissioner for Patents, P.O. Box 1450, Technology Center 3600, Alexandria, VA 22313-1450.

The declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The declaration is defective because the inventor's signature appears in a wrong place (under the box of a second inventor). Applicant must provide his signature in the box under his name (under the box of a sole inventor).

The drawings filed Oct. 27, 2003 are objected to for the following reasons:

- All views are devoid of any surface shading. In order to differentiate between open and solid surfaces on the drawing, proper surface shading is essential;
- The solid black lines bleeding together are not permissible and should be clearly separated in the areas indicated in the enclosed photoprints;

The necessity for good drawings in a design patent application cannot be overemphasized. As the drawing constitutes the whole disclosure of the design, it is of utmost importance that it be so well executed both as to clarity of showing and completeness, that nothing regarding the design sought to be patented is left to conjecture. An insufficient drawing may be fatal to validity. (35 U.S.C. 112, first paragraph). Moreover, an insufficient drawing may have a negative effect with respect to the effective filing date of a continuing application.

The drawing figures should be appropriately shaded to show clearly the character and/or contour of all surfaces represented. This is of particular importance in the showing of three (3) dimensional articles where it is necessary to delineate plane, concave, convex, raised, and/or depressed surfaces of the subject matter, and to distinguish between open and closed areas.

Applicant is required to correct the above drawing deficiencies and submit properly executed formal design drawings (see 37 C.F.R. § 1.152 and § 1.84).

When preparing new drawings in compliance with the requirement therefor, care must be exercised to avoid introduction of anything which could be construed to be new matter prohibited by 35 U.S.C. 132 and 37 CFR 1.121 (a) (6).

The following statement must be used to describe the broken lines in the drawing (MPEP § 1503.02, subsection III):

-- The broken line showing of a cord and connector in Fig.8 is for illustrative purposes only and forms no part of the claimed design. --

The above statement should be inserted in the specification immediately preceding the claim.

Moreover, for accuracy, the term "plane" in the descriptions of Figs.6 and 7 should be amended to read as "**plan**".

The claimed design is patentable over the references cited.

This application is in condition for allowance except for the following formal matters: correction of the drawing disclosure and amendment of the specification.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A SHORTENED STATUTORY PERIOD FOR REPLY TO THIS ACTION IS SET TO EXPIRE TWO MONTHS FROM THE MAILING DATE OF THIS LETTER.

(57) **ABSTRACT**

A selector pen for touch screen includes a barrel having a light emitter mounted therein to be turned on or off through turning of a switch rotatably connected to a rear end of the barrel. The switch includes a base defining a non-circular insertion hole, a movable rod being fixedly received in the insertion hole of the movable rod and having an inclined top formed into a spiral guide surface, and a cap being rotatably covered onto the base and having an internal projection. When the cap is turned, the projection slides along the spiral guide surface to gradually depress the movable rod for the same to electrically make the light emitter. The switch has simplified structure and the spiral guide surface defines a definite range of turning for the cap.

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

8. We phoned USPTO on **25th of January 2005** to inquire the filed petition, we were informed by the USPTO that the petition was in the process.
9. We then pre-set a date, **25th April 2005** as the deadline for the second enquiry that if we still have not received any response from USPTO, we would phone USPTO again to enquire the petition filed on 22nd October 2004.
10. On **14th April 2005**, we received a second Notice of decision on petition to withdrawn the holding of abandonment, mailed on 25th March 2005 to inform us to submit requested documents.

DECISION ON PETITION
TO WITHDRAW THE
HOLDING OF ABANDONMENT

This is a decision on applicant's petition to withdraw the holding of abandonment, filed in the United States Patent and Trademark Office (USPTO) on October 27, 2004.

The petition is **DISMISSED**.

A review of the file record reveals that the application became abandoned for failure to respond to the Office action mailed to applicant on April 1, 2004. A Notice of Abandonment was mailed on October 14, 2004.

Applicant's petition indicates that the Office action was never received. In support thereof applicant has provided a log of papers received. This is not considered to be a docket record.

There is a strong presumption that Office communications properly addressed and delivered to the United States Postal Services, are in fact delivered to the addressee. An allegation that the Office communication was not received must be overcome by a showing that it was not received.

The showing required to establish non-receipt of an Office communication must include all of the following requirements:

- (1) A statement from the practitioner stating the Office communication was not received by the practitioner;
- (2) A statement attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received; and
- (3) A copy of the docket record where the non-received Office communication would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement.

The docket records indicated above must include a copy of the list of all responses in the practitioner's office with the due date at and around July 1, 2004. See Notice entitled "Withdrawing the Holding of Abandonment When Office Actions Are Not Received," 1156 OG 53 (November 16, 1993).

The petitioner has failed to comply with requirement (3) indicated above. Applicant has only set forth that the Office action mailed April 1, 2004 was not received or placed in the file for application 10/700,115. A complete docket record with a copy of the list of all responses in the practitioner's office with the due date at and around July 1, 2004 is required.

Petitioner's evidence of non-receipt of the Office action mailed April 1, 2004 is insufficient to withdraw the holding of abandonment, and the petition is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.181."

Correspondence with respect to a Petition to Withdraw the Holding of Abandonment under *Delgar Inc. v. Schuyler* should be mailed to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.
